

Floor Mats For Hino Trucks

PART# FLRMATNAPS fits conventional cabs

Protect your investment with these attractive, highly functional floor mats!

• “Patented” floor mat with (PRS) Positive Restraint System flange holds the driver side floor mat in place.

• Heavy duty borders to catch and retain abrasive debris, caustic materials, liquids, grease and oils harmful to a trucks O.E. flooring.

• High impact absorbing vertical ribs textured inlay.

PART# FLRMATCOE fits cabovers (195, 300 cabs).

PART# HFM500 fits "500 cabs"

EXPORT ONLY

PART# HFM700 fits "700 cabs"

EXPORT ONLY

Advisory

- Floor mat part numbers won't necessarily fit all years, or all configurations for the Truck model listed.
- Truck manufacturers make changes to cab interiors periodically that can affect the fit of auxiliary floor mats.
- Truck models can have multiple floor plans due to options, accessories, and build variances
- To check for proper fit; ensure that the floor mat lays flat against the O.E. flooring, and does not interfere with the control pedals.

Please see Installation Instructions on our "Support tab" at www.productsalesco.com for important safety information.
